PROFESSIONAL SUMMARY

I graduated with a Bachelor of Engineering in Computer Science, with a strong academic background and hands-on experience in video editing. I am passionate about short-form video editing and creating engaging content for digital platforms. I am a video editing professional skilled in Adobe After Effects, Premiere Pro, and DaVinci Resolve, capable of producing visually compelling videos. I can create short-form video edits for social media, using advanced techniques such as motion graphics, transitions, B-roll, text overlays, and audio editing. With a solid foundation in editing principles and a passion for continuous learning, I aim to deliver high-quality visual content that engages and inspires audiences while maintaining efficiency and effectiveness.
